## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

This annual management report of fund performance presents management's view of the significant factors and developments during the period that have affected the fund's performance and outlook. In this report, "Matco" refers to Matco Financial Inc., the Manager of the Fund.

### Investment Objective and Strategies

The objective of the Matco Balanced Fund (the "Fund") is to seek a balance of long-term capital appreciation and current income by investing in a Canadian focused portfolio of equities and fixed income instruments, diversified across investment styles and market capitalization, geographic regions, asset classes, and sectors.

The Fund utilizes a risk management framework focused on achieving long term growth while exhibiting lower volatility. Seeking to balance current income and long-term capital appreciation, the Fund invests in Canadian equities, global equities and investment grade fixed income assets. The portfolio is diversified across market capitalization, asset classes, sectors and geographic regions. This "one-stop" Fund offers diversified sources of ongoing income, preserves capital based on an institutional investment risk management process and provides lower volatility performance.

### Risk

The overall and specific risks of investing in the Fund are as described in the Fund's Simplified Prospectus dated June 11, 2021. There were no material changes to the Fund during the period that affected the overall level of risk associated with an investment in the Fund. The risk rating of the Fund is low-to-medium.

### Results of Operations

The Fund's net assets increased to \$214.3 million at December 31, 2021 from \$198.7 million at December 31, 2020. Total investment income for the year ended December 31, 2021 was \$22.2 million, prior to income and operating expenses, up from \$13.7 million for year ended December 31, 2020.

Given the outlook for decelerating economic growth in 2022 and a more challenging corporate earnings environment, the team reduced the Fund's global equity exposure. This will allow the Fund to take advantage of any volatility within equity markets throughout the first half of 2022.

Matco's Asset Mix Committee team is responsible for setting the Fund's target asset mix and remains focused on maintaining a growth tilt, favouring equities over fixed income over the long term while actively managing risk through the short term.

### Recent Developments

As we look out to 2022, the Matco investment team has a strong level of conviction that we are in the early phases of the current long-term economic expansion. This paves the way for strong investment returns over the next three to four years. However, within the context of the long-term economic expansion, 2022 is poised for decelerating economic growth, where companies will have a more difficult time beating earnings expectations. This is likely to create a higher level of volatility in equity markets than what was experienced in 2021.

Notable headwinds for this year will be an increasing interest rate environment, a lower level of fiscal stimulus from governments around the world, and inflation that will remain elevated through the first three quarters of 2022.

Although the market is now more focused on economic and investment fundamentals, increasing bouts of COVID-19 variant cases throughout the year will cause occasional steps backwards among the broader march forward.

On the other hand, notable tailwinds for the markets in 2022 will be continued improvements in the labor market, improvements in the recent supply chain disruptions, strong corporate balance sheets and consumers shifting to services spending, as travel and leisure activities become more accessible.

Looking out to 2022, Matco's investment team is positive on the outlook for value-based sectors such as industrials and financials, while more defensive on expensive sectors such as technology.

The Matco Balanced Fund is specifically designed to protect and grow investor capital through all market environments, making it an excellent investment vehicle through periods of positive but decelerating economic growth.

As always, our disciplined investment process will continue to focus on re-assessing the economic outlook and positioning the fund accordingly.

The COVID-19 virus continues to have ongoing impacts on the markets in which the Funds operate. Sectors in several countries most heavily impacted by COVID-19 since its outset continue to operate below pre-pandemic levels giving rise to elevated uncertainties. The Funds have utilized estimates, assumptions and judgments that reflect this uncertainty. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

On February 24, 2022, Russia launched a military campaign in Ukraine. Economic sanctions have been imposed and the situation remains fluid. The Fund does not have any significant direct exposure to Russian securities. Given the impact the situation is having on economies and markets, there are potential direct and indirect effects on the value of the investments in our portfolios, and we will continue to monitor the situation.

### Related Party Transactions

#### Management Fees

Matco provides the Fund with investment management services, including managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio and providing other services. In return, Matco receives a management fee based on the net assets of the Fund, calculated on a daily basis.

For the year ended December 31, 2021, the Fund incurred management fees payable to Matco of \$231,241 (year ended December 31, 2020 - \$266,469). Matco, at its discretion, absorbed \$625 (year ended December 31, 2020 - \$6,566) of expenses for the year ended December 31, 2021. There is no obligation nor guarantee that the Manager will continue to absorb expenses in future periods.

#### Investment Review Committee

An Investment Review Committee ("IRC") has been established by the Manager in accordance with *National Instrument 81-107 Independent Review Committee for Investment Funds* ("NI 81-107"). The IRC must review and approve conflict of interest matters as referred by the Manager. The Fund did not refer any related party transactions or conflict of interest matters to the IRC during the year ended December 31, 2021 or 2020.

- (1) This information is derived from the Fund's audited annual financial statements. Per unit amounts are for the periods for increases (decreases) and points in time for distributions, as applicable, and are not intended to be a reconciliation of opening and closing net assets.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- (3) Distributions were paid in cash/reinvested in additional units of the Fund, or both.
- (4) The information is prepared in accordance with IFRS which uses the last trade price for investments that are traded in an active market where quoted prices are readily and regularly available. For investments that are not traded in an active market, the Fund uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs.
- (5) This information is provided as at the year shown, as applicable, except Series N for 2018 which are from inception February 6, 2018 through December 31, 2018.
- (6) Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net asset value during the year/period.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
- (8) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year/period.

**Management Fees**

The annual management fee rates, exclusive of sales taxes, are 1.75%, 1.00% and 0.50% for Series A, F and N respectively. No management fees are charged directly to Series O.

During the year ended December 31, 2021, management fees totaled \$231,241 (year ended December 31, 2020 - \$266,469). Included in liabilities at December 31, 2021 is \$19,211 (December 31, 2020 - \$23,144) in respect of these fees.

All management fees paid by Series F and N were applied to cover portfolio management and other services provided to the Fund by the Manager. No such fees were used to pay for external portfolio advisory fees, trailing or other sales commissions. Of management fees paid on Series A, 57.14% were used to pay for trailing and other dealer sales commissions, the remaining 42.86% covered portfolio management and other services provided to the Fund by the Manager.

**PAST PERFORMANCE**

This section shows how the Fund has performed in the past. The performance information shown assumes that all distributions made by the investment fund in the periods shown were reinvested in additional securities of the fund. The performance information does not take into account: sales, redemption, and distribution or other optional charges, that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

**Year-By-Year Returns**

The bar charts that follow show the performance of each series of the Fund for the ten most recently completed financial years. The charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31st of the fiscal year (except 2018, as noted below).

\*Series N returns for 2018 is from inception February 6, 2018 to December 31, 2018 and for 2019 is from January 1, 2019 through liquidation December 26, 2019.

The Blended Benchmark constituents reflect congruent allocations, risk exposures and track performance closely over long periods of time. Given Matco's private client investor base, who often look at ETFs as a substitute for active investment solutions, the ETF better fulfills the investable portion of the benchmark suitability criteria. Matco has chosen to be consistent across all mandates by benchmarking against ETFs for this reason

**A NOTE ON FORWARD LOOKING STATEMENTS**

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

We stress that the above-mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.
