MANAGEMENT DISCUSSION OF FUND PERFORMANCE

This interim management report of fund performance presents management's view of the significant factors and developments during the period that have affected the fund's performance and outlook. In this report, "Matco" refers to Matco Financial Inc., the Manager of the Fund.

Investment Objective and Strategies

The objective of the Matco Balanced Fund (the "Fund") is to seek a balance of long-term capital appreciation and current income by investing in a Canadian focused portfolio of equities and fixed income instruments, diversified across investment styles and market capitalization, geographic regions, asset classes, and sectors.

The Fund utilizes a risk management framework focused on achieving long term growth while exhibiting lower volatility. Seeking to balance current income and long-term capital appreciation, the Fund invests in Canadian equities, global equities and investment grade fixed income assets. The portfolio is diversified across market capitalization, asset classes, sectors and geographic regions. This "one-stop" Fund offers diversified sources of ongoing income, preserves capital based on an institutional investment risk management process and provides lower volatility performance.

Risk

The overall and specific risks of investing in the Fund are as described in the Fund's Simplified Prospectus dated June 10, 2022. There were no material changes to the Fund during the period that affected the overall level of risk associated with an investment in the Fund. The risk rating of the Fund is low-to-medium.

Results of Operations

The Fund's net assets decreased to \$168 million at June 30, 2022 from \$214 million at December 31, 2021. Total investment loss for the Period ended June 30, 2022 was \$22.8 million, prior to total income and operating expenses, down from investment income of \$15.6 million for period ended June 30, 2021.

The Fund was overweight equities and underweight fixed income throughout the second quarter, negatively affecting performance. However, this negative contribution was offset by the Fund's greater relative performance within our equity allocations in Canada and globally.

Although Canadian equities have significantly underperformed their global counterpart over the last decade, rising commodity prices have allowed the Canadian stock market to lead thus far in 2022. Typically, a balanced portfolio's bond allocation will help offset the negative performance of a downward trending equity market. However, due to rising interest rates, well-diversified portfolios' bond and equity sides have been under pressure. Overall, a combination of the above factors led to the Fund outperforming its benchmark.

Recent Developments

The Matco investment team focuses on staying ahead of the curve and as a result the team began positioning the Fund for 2022 throughout the second half of 2021. Given the outlook for decelerating economic growth in 2022 and a more challenging corporate earnings environment, the team reduced the Fund's equity exposure in December 2021. This allowed the Fund to take advantage of the volatility within equity markets in the first quarter of 2022. Matco's Asset Mix Committee re-deployed 5% and 2.5% of the Fund's protected fixed income assets back into equities in January and March, respectively. Since March, Matco's Balanced Fund has rebalanced the equity exposure by trimming both Canadian and global equities in June by 4.9%. Matco's Asset Mix Committee team is responsible for setting the Fund's target asset mix and remains focused on maintaining a growth tilt, favouring equities over fixed income over the long term while actively managing risk through the short term.

Over the next 18 months, financial conditions will continue to tighten as interest rates rise. This will begin to slow growth but in a delayed fashion. Our Asset Mix Committee will be focused on risk management through the remainder of 2022 while ensuring our portfolio is positioned to capitalize on reacceleration in 2023. This means our fixed income allocation will remain at the lower end of its range and equities at the higher end. Within fixed income, the focus is to protect against inflation and rising interest rates. Within equities, we focus on value-based sectors such as industrials and financials, as well as companies with the ability to flow price increases through to the consumer. Given the tightening financial conditions, we are defensive on expensive sectors such as technology. The Matco Balanced Fund offers both asset class and equity exposure diversification. The Fund is yielding 2.7% for unitholders, ensuring they are receiving income throughout their full investment horizon. In combination, this allows the Fund to provide stable returns over the long term.

Related Party Transactions

Management Fees

Matco provides the Fund with investment management services, including managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio and providing other services. In return, Matco receives a management fee based on the net assets of the Fund, calculated on a daily basis.

For the Period ended June 30, 2022, the Fund incurred management fees payable to Matco of \$102,655 (period ended June 30, 2021- \$118,275). Matco, at its discretion, absorbed \$nil (period ended June 30, 2021- \$625) of expenses for the Period ended June 30, 2022. There is no obligation nor guarantee that the Manager will continue to absorb expenses in future periods.

Investment Review Committee

An Investment Review Committee ("IRC") has been established by the Manager in accordance with *National Instrument 81-107 Independent Review Committee for Investment Funds* ("NI 81-107"). The IRC must review and approve conflict of interest matters as referred by the Manager. The Fund did not refer any related party transactions or conflict of interest matters to the IRC during the Period ended June 30, 2022 or 2021.

- (1) This information is derived from the Fund's audited annual financial statements. Per unit amounts are for the periods for increases (decreases) and points in time for distributions, as applicable, and are not intended to be a reconciliation of opening and closing net assets.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- (3) Distributions were paid in cash/reinvested in additional units of the Fund, or both.
- (4) The information is prepared in accordance with IFRS which uses the last trade price for investments that are traded in an active market where quoted prices are readily and regularly available. For investments that are not traded in an active market, the Fund uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs.
- (5) This information is provided as at the year shown, as applicable, except Series N for 2018 which are from inception February 6, 2018 through December 31, 2018.
- (6) Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net asset value during the year/period.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
- (8) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year/period.

Management Fees

The annual management fee rates, exclusive of sales taxes, are 1.75%, 1.00% and 0.50% for Series A, F and N respectively. No management fees are charged directly to Series O.

During the Period ended June 30, 2022, management fees totaled \$102,655 (period ended June 30, 2021- \$118,275). Included in liabilities at June 30, 2022 is \$14,196 (December 31, 2021 - \$19,211) in respect of these fees.

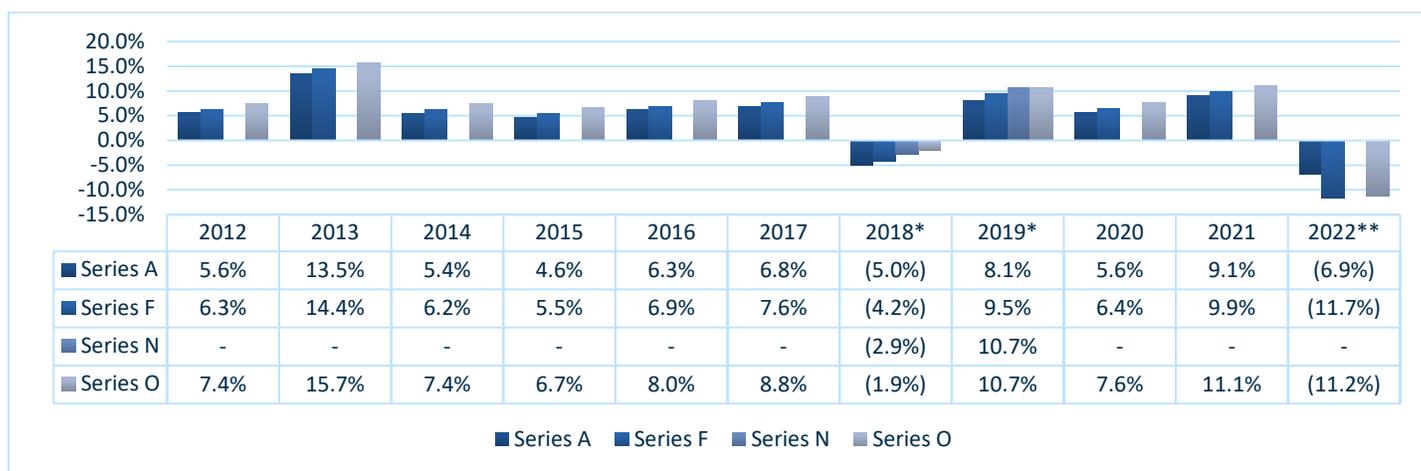

All management fees paid by Series F and N were applied to cover portfolio management and other services provided to the Fund by the Manager. No such fees were used to pay for external portfolio advisory fees, trailing or other sales commissions. Of management fees paid on Series A, 57.14% were used to pay for trailing and other dealer sales commissions, the remaining 42.86% covered portfolio management and other services provided to the Fund by the Manager.

PAST PERFORMANCE

This section shows how the Fund has performed in the past. The performance information shown assumes that all distributions made by the investment fund in the periods shown were reinvested in additional securities of the fund. The performance information does not take into account: sales, redemption, and distribution or other optional charges, that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

Year-By-Year Returns

The bar charts that follow show the performance of each series of the Fund for the past six months (noted 2022), and for the ten most recently completed financial years. The charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31st of the fiscal year (except 2018, as noted below).

*Series N returns for 2018 is from inception February 6, 2018 to December 31, 2018 and for 2019 is from January 1, 2019 through liquidation December 26, 2019.

**Series A returns for 2022 is January 1, 2022 through liquidation May 27, 2022.

** The Blended Benchmark is 50% iShares Core Canadian Universe Bond Index ETF, 35% iShares Core S&P/TSX Capped Composite Index ETF, and 15% Vanguard Total World Stock ETF, during the year. The Blended Benchmark constituents reflect congruent allocations, risk exposures and track performance closely over long periods of time. Given Matco's private client investor base, who often look at ETFs as a substitute for active investment solutions, the ETF better fulfills the investable portion of the benchmark suitability criteria. Matco has chosen to be consistent across all mandates by benchmarking against ETFs for this reason

A NOTE ON FORWARD LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

We stress that the above-mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.
